

# Christian Care Center QCA

## Domestic Violence Shelter & Rescue Mission

The mission statement of the Christian Care Center according to their website is, “Christian care is a nonprofit, charitable organization committed to ending homelessness and violence, using Christian values to minister to those in crisis and providing the tools necessary to achieve positive change.”

The two facilities they use provide care for homeless men as well as abused women and children. The Christian Care Center hopes to show the people they are helping that they are not alone and God always walks with them. They provide basic needs such as shelter, food, clothing, and personal care items. The citizens the Christian Care Center hope to help are homeless individuals, victims of domestic violence, veterans, men and women coming out of prison, and the mentally ill. The individuals staying at the facilities are not on a time restraint as long as they are working to improve their lives. Residents have the opportunity to attend Chapel Services and Bible Studies on site, and they can attend services at a church or religious center of their choice.
